Report on Field Visit to Chandravana Herbal Garden

Date: 17.07.2026

Venue: Chandravana Herbal Garden, Saraswathipuram, Mysuru

Organized by: Department of Botany

Participants: B.Sc., V SEM (CBZ) - 24 students and teachers

Objective:

- To identify and study a wide variety of medicinal plants.
- To understand the botanical characteristics and taxonomy of herbal species.
- To learn about the medicinal uses of plants in ayurveda and traditional medicine.
- To familiarize students with the economic and commercial importance of medicinal plant species.

Brief write up:

A field visit to Chandravana Herbal Garden was organized to provide students with practical exposure to the diversity and importance of medicinal plants.

During the visit, students observed a wide range of herbal species and learned about their botanical names, medicinal properties and therapeutic uses in ayurveda and other traditional systems of medicines.

M. M. Swamy, HoD, Department of Botany explained the significance of conserving medicinal plants, their taxonomy and ethno botanical uses. Students actively interacted and recorded their observations of different plant species.

Overall, the field visit was an enriching educational experience that effectively made a bridge between classroom learning with that of the practical knowledge. Faculty members of Dept. of Botany Smt. Sushma K.S and Mr. Pruthvi K J accompanied the students.
