Report on Field Visit to Curzon Park

On 06.04.2026 Department of Botany organized a field visit to Curzon Park, A Part of Nurserymen cooperative society Ltd. Mysuru for II Year B.Sc., CBZ (IV semester) Botany students as a part of curriculum. Faculty member of Dept. of Botany Mr. Pruthvi K J accompanied the students.

Curzon Park in Mysuru is a historic landscaped green space established in 1900 to commemorate Lord Curzon's visit. This scenic garden known for its century old trees and located in the heart of the city.

Objectives:

- To observe the layout and design of the public park.
- To understand the arrangement of lawns, flowerbeds etc.,
- Analyze efficiency of maintenance of public parks.
- To understand the importance of green space in urban areas.
- To identify different ornamental plants, trees, shrubs and flowering species.

Brief Write up on the Field Visit:

The field visit to Curzon Park was enriching and educational experience that provided practical exposure to features of garden, maintenance of garden and showcased a wide variety of plants including ornamental species, fruit plants, medicinal plants and seedlings grown in polybags and trays. Students observed the different methods of plant propagation and key features of garden like hedges, paths, fences, edges etc.,

The visit to the park offered insights into landscape design and maintenance practices. Students learned about the selection of different plants based on the purpose such as shade, decoration and environmental basis.

Overall, the visit helped the students to understand nursery techniques and importance of green space in urban areas.
