Report On Industrial Visit

Date: 15-10-2025

Place: ITC Food Processing Division, Thandya Industrial Area, Nanjangud Taluk, Mysuru

Number of beneficiaries: 45

Objectives:

- ✓ To understand the manufacturing process
- ✓ To observe the machinery and technology
- ✓ To learn about the quality control measures
- ✓ To interact with industry professionals.

Brief Write up on the Industrial Visit:

Observations made by the students

- First Women Factory, ITC Limited's facility is notable for being women-centric factory, with a strong emphasis on female empowerment.
- The company provides transportation facilities to all its women employees, ensuring their safety and convenience.
- ITC Limited food division produces variety of products including:
 - Bingo
 - Aashirvad
 - ITC master chef
 - SunFest yippee
 - Dark fantasy
 - B Natural
 - Moms magic etc.
- MOTO - "Safety is our first priority production is next"
- GUIDE: Mr. Deepak, Manufacturing Executor, explained the production process for potato chips and pop chips.
 - Potato chips production: 10 production lines with a capacity to produce a significant quantity of potato chips.
 - POP chips production: with 30% less fat pop chips are healthier alternative regular potato chips.

- Production Stages are Peelings, Slicing, Blancher, Fryer, Optics, Seasoning, Packaging
- Cold Storage
 - Temperature maintained between 18-to-24-degree Celsius
 - Relative humidity
 - Yellow light is used instead of white light to prevent greening of potatoes.
- Potato Processing
 - Grading: potatoes are graded to separate them based on size and quality.
 - Capacity: 13 containers can hold approximately 1 ton of potatoes.
 - Potato variety: plant uses a specific variety of potato, likely “Lady Russet” or a similar type.
 - Blanching: Boiled at around 170 to 180 degree Celsius
 - Cleaning: Equipment’s are cleaned every 4 hours using spray bolls.
 - Unload Area: Received in truck with a capacity of 30 tons.
